

U.S. ENVIRONMENTAL PROTECTION AGENCY
POLLUTION REPORT

I. HEADING

DATE: AUGUST 15, 1995
SUBJECT: INITIAL POLREP -
ACCU-CIRCUITS, INC. SITE
LOCATION: BLOOMFIELD, CT
SITE ID NUMBER: 2H
CERCLIS NUMBER: CTD983887803
OSC: TED BAZENAS, USEPA, EMERGENCY PLANNING
AND RESPONSE BRANCH, SITE EVALUATION AND
RESPONSE SECTION II
OFFICE PHONE #: 617-860-4375
ACTION MEMO STATUS: PRP LEAD
MOBILIZATION DATE: AUGUST 14, 1995
DEMOBILIZATION DATE: TBD

Superfund Records Center

SITE: Accu-CircuitsBREAK: 2.4OTHER: 598922

II. BACKGROUND

Accu-Circuits, Inc. manufactured printed circuit boards for the computer industry. The facility is located at 81 Old Windsor Road in Bloomfield Connecticut. Manufacturing began in mid 1991; the facility ceased operation in October of 1994. The building continues to be occupied by Accu-Circuits, Inc. since that time.

The building interior contains approximately 90 uncovered electroplating baths, most of which each contain over 100 gallons of plating chemicals, and approximately 250 containers (55 gallon drums, 30 gallon drums, 5 gallon pails and smaller bottles) of various chemicals associated with the plating industry. Three drums of waste sludge were found near the loading dock. There are at least seven 1500 gallon water treatment vessels inside the building that are partially full.

II. ACTIONS

A Unilateral Administrative Order was issued by EPA to Accu-Circuits, Inc. on July 14, 1995.

The first contractor selected by the PRP was initially approved by the OSC. Additional investigation revealed that the anticipated disposal facilities did not qualify for EPA approval. The OSC then determined that this contractor was unacceptable.

On July 26, 1995, Accu-Circuits, Inc. informed the OSC that they had secured the services of another cleanup contractor Environmental Products and Services. All proposed transportation and disposal contractors met with EPA

approval. The OSC therefore approved the selection of Environmental Products and Services as the cleanup contractor for the PRP.

On August 14, 1995, Environmental Products and Services, under contract to Accu-Circuits, Inc., mobilized to the site. The majority of plating baths were field screened for compatibility and pumped off into metal or poly drums, as appropriate.

III. FINANCIAL

No extramural funds have been expended. This is a PRP funded action.

IV. FUTURE PLANS

-Environmental Products and Services will remobilize to the site within 10 days to remove the bulk liquids from the water treatment system.

-Sludge and solid wastes will be prepared for disposal.

-Small containers of chemicals will be lab packed for disposal.

-All drums and liquids will be transported to an EPA approved disposal facilities.
